

PRODUCT HIGHLIGHTS

- Does not require any complex and expensive external device/option (available on valve gated product ranges)
- Allows efficient control over flow marks
- Progressive gate opening is available only for easytip for PP based applications (diam: 4 mm only)
- Cost effective hydraulic solution
- 100% embedded on the hot runner system

APPLICATION

Pressure drop responsible for flow marks

With Flow Control :
Elimination of the flow marks

OPTION 1

Individual gate speed opening control by high precision hydraulic Flow Control device.

OPTION 2

Progressive gate tip technology (not available for color change).

OPENING START:
Slow flow

MIDDLE STROKE:
Medium flow

FULL STROKE:
Full flow

CYLINDRICAL GATE CLOSING:
Long life, perfect gate quality and guided needle
